A stunning collection of heartfelt songs with smooth vocals , some great pop moments, and clever , sad and emotive lyrics. 10 MP3 Songs POP: 70's Pop, COUNTRY: Country Rock Details: This is a stunning collection of heartfelt songs from the former Autohaze guitarist. With smooth vocals, some great pop moments, and clever, sad and emotive lyrics. This release deserves close attention. There are ten songs in all (most of them unforgettable) on which Chris plays all the instruments (except strings on the melancholy "Taxi", which are by Jen Anderson) . My favourite songs? Well, all of them, particularly the quiet "Gravity", and the album's super pop song, "Out here,so long". "Inconsequences" starts with a Mazzy Star feel and moves into yet another catchy chorus, containing tasteful piano, a great guitar melody and more hook-heavy vocals. The music of Chris Chapple would have to be one of the best discoveries I've made this year. The songs on this album are refined, his voice rich and the arrangements suitably dynamic.
