

Mp3 Hot Club Sandwich - Enjoy Yourself Or Get Out

[DOWNLOAD HERE](#)

A mixture of genres - basic swing music flavoured with country, smooth jazz, blues and rock'n'roll. 12 MP3 Songs COUNTRY: Western Swing, JAZZ: Smooth Jazz Details: HOT CLUB SANDWICH: Enjoy Yourself or Get Out While the name of the combo and the bio both suggest jazz standards of the 30s and 40s a la Django Reinhardt, this recording bears little resemblance to any of its Paris (almost) namesake. There is the Grappelli-like violin style of Nik Brown and some lovely jazz guitar from Andrew London, but Terry Crayford's piano and smooth vocals along with the wit and vocal edge of London's songs take this album into a very different terrain. In fact Andrew London's Middle Class White Boy Blues sort of sums it up. It's great! Polished performances all round, plenty of variety and a sense that they're not taking it all too seriously. Yes, it's jazz but not for the purists, it's way too accessible! Go to hotclubsandwich.co.nz to find out more. * Mike Moroney
