Justin Gordon sings sweet songs from his front porch Appalachian rocking chair that artfully celebrate a modest life and stories from the road backed by intricate fingerpicking guitar melodies. Check it out. 14 MP3 Songs FOLK: Modern Folk, COUNTRY: Country Blues Details: Justin has been playing guitar for 15 years, mixing his early interest in vintage country blues with everything that came after and recording it in shacks, barns, or the front seat of his car, giving way to 2 records of intimate infectious songs from the hills of lesser appalachia. "Thoughtful, introspective, musically infectious and, at its best, flat-out brilliant...Travelers Rest is one of the best albums of its kind to come along in recent years. It's all the evidence needed to establish Justin Gordon as, not only an underrated songwriter, but among the region's best." Troy Gregorino, The Athens Insider, Nov. 25 2004 Athens, Ohio
