rhythm of the islands songs from the heart 10 MP3 Songs POP: California Pop, JAZZ: Smooth Jazz
Details: Mark Sanders is a singer songwriter multi instrumentalist and producer who has written and recorded in a number of styles including Blues, Jazz and pop. He is known for creating concept albums that tell a story and the Island Dreams CD is no exception. "I fell in love with the rhythms of the music I heard when I was in the Caribbean, the Salsa and Reggae especially. I wanted to capture the romantic feeling of the Islands and that sense of being a world away. I have tried to tell a story about a place, a feeling and ultimately a state of mind." In addition Mark's instrumental and vocal work on Island Dreams you will hear vocals by Suzanne Weiler as well as the jazz flavored sax work of Al "doc" Anderson. Enjoy the Journey, live the dream.
