"Kingdom Music" a new genre of music that fuses spoken word with urban beats and confronts the hypocrisy in the Gospel Music Industry, Hip Hop, and pop culture as a whole. Truth seekers will love this underground yet Divine Treasure. 19 MP3 Songs SPOKEN WORD: Poetry, HIP HOP/RAP: Spiritual Rap
Details: Originally, the Entermission (ANTI HIP-HOP SERIES, VOL. 1) project was slated to be an instrumental CD geared toward "holy hip hoppers." We wanted to offer musical tracks that people could dance and freestyle to while at the same time showcasing 33's beat-making skills. But as we began to lay songs down, The Lord began to fill our mouths with prophetic utterances concerning the gospel music industry and that's when everything began to change. Songs like Star Warz and Babylon Falls began to pour out of us as we watched Mase, R-Kelly, Kanye West, and others become favored among Gospel Industry Leaders from all over the country. In this project we go beyond the strongholds into the enemy's camp and reveal his secret plans to all of the truth seekers who are tired of compromising holiness. This is a revolutionary campaign and a call to exit the comfort zone of mediocrity, exit hip hop, exit compromise and enter the mission to establish Kingdom Music!!!
