Songs Details: Afterthem...experimental garage funk/rock. Lead vocals shared out by Joy Epting and Laurel Barclay Afterthem has been accused of stressful to sound like everything from Frank Zappa to Evanescence to Bjork. Although band leader Dave George insists he has never heard of the latter two,he admits that Frank Zappa has been his musical hero for as long as he can remember. We wish someone would accuse us of stressful to sound like King Crimson or Gentle Giant but so far no luck. Thanks to Arnie at The Jam Room recording studios New Jersey We hope you will enjoy our music and tell your frends.
