Details: Bob Reuter's Alley Ghost is American Music at its best. The godfather of Midwestern DIY is surrounded by a young, soulful group of St. Louis musicians as he sings ballads of love lost, friends found, sad soldiers, and back street affairs. The music is raw, driving, and true - truly a gift to anyone willing to open the package. The story begins with a brush against death and ends with these recordings. While Bob was in the hospital recovering from emergency heart surgery, he was visited by a young, up-and-coming blues guitar player (Mat Wilson, Rum Drum Ramblers). The two formed a friendship that would eventually lead to the creation of Alley Ghost. Mat continued to visit Bob as he recovered in his home - the two would trade stories and songs, passing the guitar back and forth. As the songs of Bob's past began to take life, a band was recruited to record them - in Bob's kitchen on a reel-to-reel, at his own request. Pots, pans stovetops lend their hand among harmonica, banjolin, upright bass, snare drums and guitars to the definitive Bob Reuter recording as the lines between folk, punk, country and rock roll are blurred.
