Here is a new collection of Brian Gari recordings that spans 15 years of recording with his Beach Boys-Rupert Holmes style. 16 MP3 Songs ROCK: 60's Rock, POP: California Pop Details: Brian Gari has been gaining a great deal of recognition of late with his salute to Brian Wilson and his Brian Sings Wilson CD. His new album is a collection of songs recorded over the past 15 years, but never before released. The songs certainly have the Brian Wilson influence, but also shows his love for the British recordings of the 60s with his collaboration on a song with British hit songwriter Mitch Murray (remember HOW DO YOU DO IT?, I LIKE IT, I'M TELLING YOU NOW?) There is also a very touching tribute to a victim of 9/11. It also includes the lyrics to all the songs.
