

Mp3 Fearne - Colour In A World Of Grey

If Travis were happy they'd sound like Fearne. Unforgettable songs about obsessions with pop stars, Green Eyeshadow and Cardiff Uni dealt with in a humorous hopelessly optimistic way. 11 MP3 Songs
POP: Pop/Rock, ROCK: Acoustic Details: If you were to box Fearne into a category you would probably that they write acoustic pop songs. Their live shows are probably some of the most captivating that you'll ever see. Lead into action as they are by Alex Beds who sings, plays guitar and brings a touch of fun to the stage. It is not an exaggeration to say that you can literally see the audience look up, gravitate towards the stage and start dancing wherever these guys play. Bass player Nick will have you believe that it is his own pure animal magnetism that brings in the crowds, and true as this might be in his little world, the songs also have a little to do with it too. Their new album Colour (In A World of Grey) is brilliant and well worth the money.
