A Nostalgic Latin flavor... with a French twist. 13 MP3 Songs WORLD: World Fusion, EASY LISTENING: Lounge Details: With music ranging from Bossa Nova to Lounge, LA RESISTANCEs tag Nostalgic Latin flavor with a French twist is refreshingly accurate. This is another of Lionel Cohens projects, and like all of his musical styles, it is done to perfection. Nylon string guitar leads most of these instrumentals beautifully orchestrated with piano, strings, horns, percussions and some weird sounds reminiscent of Ennio Morricone. Emotionally, the listener is taken on a trip through beauty, nostalgia, melancholy, and sadness, that ultimately ends on a high note, as if to say all experience is a growing experience. Only Because is the only song featuring vocals, and it seems to gracefully sum up much of the musical experience we undergo throughout the album. It is guaranteed to be a hit!
