

Mp3 Logjam - Stumped!

[DOWNLOAD HERE](#)

Logjam's veritable moron opus blazes through genres, jokes and special guests at a dizzying pace. 11 MP3 Songs POP: Quirky, ROCK: Punk Details: The World-Famous LOGJAM proudly presents its first full-length album STUMPED! From the opening rock blast of "Blame it on Rio" to the unprecedented (and unnecessary) "Nilsson Medley Schmedley" to the trucker speed stomp of "The South Will Rise (Again)," it's an overflowing bathtub of musical creme brulee. Hi/lo-lights include the metal boogie thunder of "Back on the Bike," the imaginary Elvis movie theme "Everybody Loves Venice" and two unsolicited BONUS TRACKS! As if that wasn't enough, special guests like Jennifer O'Connor (Matador Records), Mauri von Corri (World/Inferno Friendship Society), Steve Burns (tv's Blues Clues), The Unknown Guitarist and The Playboys of the Western World are all on hand to make it a dysfunctional family affair.
