Wellness music from the soul of humanity. 8 MP3 Songs NEW AGE: Relaxation, ELECTRONIC: Experimental Details: I started to make electronic music in about 2002. Of course electronic music means a lot of things, like Techno and Dance, House etc... But i prefer doing something like the classic electronicals. So i spare the audience of the hard beats and i stay at the melodical, soft music. I'm composing these songs, they born thanks to a thinking, a feeling. Sometimes it's apropos of a remembrance to the past, other times the inspiration comes from the atmosphere around.
