Folk/Rock with great hooks and strong Feminist politics. 10 MP3 Songs FOLK: Gentle, FOLK: Political  
Details: Gaia Rocks, is a no holds barred folk/rock CD and shows us another side of Shawna Carol. It includes her outrageous, MARY DID IT AND SHE DUG IT (meaning the 'virgin') a reggae plea for ending the war on drugs and even a love song co-written with her partner. It opens with BLESS OUR PLANET a planetary anthem designed to replace God Bless America. Sweet and sassy. Makes great driving music.
