Related styles: FOLK: Alternative Folk, POP: Swamp Pop People who are interested in Wilco XTC Squeeze should consider this download. Details: In the words of one Mistaken fan: you arent writing about milkshakes... The Mistaken deal with lonely satellites, bunker-dwelling control-freaks, articulate terrorists and George Zapata, among others. Is it a thankless job? We think not. The Mistaken were enlisted as back-up band for Drayfus Grayson on his 'Go!' CD, released 1998. We and Drayfus shared many a smoky dive together as Three Guesses, traversing the Westside underbelly of converted mortuaries and hen-houses masquerading as nightclubs. The Mistaken have been associated with fellow conspirators The Brothers Dimm, and The Flower Machine. Mistaken members hail from Mount Washington, Lake Forest and Santa Ana, now known collectively as Dreamland. Musical influences include Wilco, Squeeze, Ron Sexsmith, Beatles, et al. Then again, our record collections include albums by Crowded House, XTC, Esquivel, Annette, Gary Lewis and the Playboys, and Jerry Vale. Should probably stop there. Band personnel: Chris Shulda: vocals, bass, guitar Nick Santangelo: vocals, piano, organ, guitar Jose Sanchez: drums Steve Sadd: sax on Hurt May you get what you want.
