

11th Mediterranean Conference On Medical And Biomedical Engineering And Computing 2007

[DOWNLOAD HERE](#)

Biomedical engineering today is a well-recognized area of research. It brings together bright minds from diverse disciplines ranging from engineering, physics, and computer sciences on one side to biology and medicine on the other side. With valuable assistance of members of the International Advisory Committee and Scientific Program Committee, the co-organizing institutions and societies, our sponsors, and distinguished invited lecturers we will ensure that the research and development presented at MEDICON 2007 plenary meetings, scientific sessions, and workshops will truly be relevant and up-to-date.
