NEW AGE: Celtic New Age, EASY LISTENING: Background Music Details: This gentle collection of original music is Rose's first album. Deeply relaxing, these gorgeous acoustic guitar solos are perfect for helping adults unwind and for coaxing kids to sleep. "A wonderful alternative to new age music usually used for massage," says massage therapist Beth H. "I've heard a lot of acoustic guitar releases over the years, and far too many cannot offer the warm and friendly atmosphere that The Redwood Sidthe does. There is a real sense of intimacy here, and it is obvious after the first listening that Clarelynn truly loves what she does, and that shines through brightly in her performance." --Instrumental Weekly Rose explains that she aims "to help people find their still point in a turning world", a phrase borrowed from Joseph Campbell. Reviews indicate she is doing just that. The New Times Magazine calls the album "a calming, healing and soulful gift". A monk from Cyprus writes, "her music offers a connection to the inner spirit of man and nature". Bella! "...a powerful statement of quiet reflection. An ethereal, organically textured feel."
