Lyrics from \*I Want to Fly\*: Since I was a child I had a dream of flying in the wind, water all around me And I ride the waves into shore When the sun goes down, I long for more I want to fly! I want to fly! High as a bird! The white capped peaks are calling me Let the cool mountain air inflate my wing I'm sailing high into the clouds Feels like the lord, is picking me off the ground I want to fly! I want to fly! High as a bird! "It is the best kitesurfing music in the Galaxy!" - Cody Funk
