Southern Style Details: Three young guys from a small town right outside of Nashville, Tennessee, known as Lebanon. One well known local DJ / producer, combined to create the new south, making music for the people to feel. Catchy hooks to sing along with and topics that reach deep within. Plenty of bass for the rollers and plenty of variation for those skeptical with rap music. Lots of talent blended with a large amount of experience that touches the reality of life, (as they know it)being a young male born into an on going cycle of hard times and easy living in an easy to relate kinda way. Very distinct lyrics about southern life, from beating the odds to revealing feelings about that close someone (without using profanity)the smash single "wit out u" will take it back to the old school ll cool j type theme, and the up-tempo club hit "tenth for tenthing" will keep you up to date and in step with the hip hop world. The loaded boyz are loaded with fun and surprises, so have a listen contact info:615-293-5317 e-mail extracity@charter.net
