Boomer Music..written by a baby boomer, based on the musical influences of his youth. Songs about time,love, family, and the love for America. Every boomer's lost youth. It will bring you back to some special moment that you miss. 10 MP3 Songs EASY LISTENING: Love Songs, ROCK: 70's Rock Details: Born in 1946, but not your standard old fat guy. Got married at 45, have a young wife, a daughter 7, and a son 10 yrs.,old. I'm 5'10",212 lbs., and can bench press 335 lbs. Who cares?..... that's right. I just don't want to be perceived as the everyday old man. My music is influenced by everyone from the Beatles to Hendrix, to Santana,the Eagles, and everthing in between for the past 30-40 years. I'm a songwriter,published twice, but never covered. So I decided to record the songs myself. They're lyrically strong and I think they deserve to be heard. I coined the genre "Boomer Music" and feel that most boomers out there can probably relate to the music. Particularly in view of the garbage these kids are playing today. We lived in a time when it was ok to be proud to be an American, and say what we wanted. There was no politically correct, just correct. Immigrants used to assimilate into our culture, now we're being told to change so we don't offend them. I say "screw them" this is our country... And this is our music. And it's in English..
