Name: Email: You are worth A LOT MORE than what you might yourself credit for. And how do I know that? Most self proclaimed Internet Gurus do a good job at dumbing other people down in a desperate attempt to sell their make money course to honest, well meaning folks like you. And if you have bought and tried some of those make money online course, my intelligent guess would be that most (if not all) of them are bogus - they plain dont work! You probably know at least a bit of Internet Marketing or on the surface level. But up until now, youre not making the kind of money you wanted... or the kind of money THEY promised you. Look, Im just saying it as it is. If what I said hit struck a nerve somewhere in you, thats not my intention. Or you wont be here - of all the millions of sites you can be browsing freely on the

world wide web! I know what its like feeling frustrated and low on self-esteem after trying out countless methods that would guarantee me instant riches. And boy, was I deeply disappointed! If this sounds like the rut youre in right now, I have a revelation to share with you. This Will Come Across As A SHOCK To You... Youre Actually Worth A LOT More Than You Think! ...Or even what the Internet Gurus rate you. There, Ive said that for the third time. And why? Because believe it or not - as long as you know even a little bit about Internet Marketing... even basic knowledge... Did you know that you can already be cashing in thousands of dollars - in a SINGLE day - with that stuff between your ears? Before you think youve heard this pitch before... No, Im about to sell you a product that guarantees overnight millions. I wont insult your intelligence, and far too many short term thinking marketers are out there to make a quick buck. How You Can Be Commanding Top Dollar Starting Today... Do you know how to create a simple website? Make a simple squeeze page? Set up a WordPress blog? Write articles or content? How about creating graphics? If your answer is YES to any of them, then YES you can start making BIG money today. With skills like this, most people either take them for granted or think lowly of them. And why would you, when... You Can Be Earning \$1,500 - \$5,000 In A Single Day... \$10,000 A Week... Or Even \$20,000 A Month! With what you already know about Internet Marketing, you can be in the business of consulting other clients who are willing to pay top dollar like these. Doubting you can do it? Case in point: Why are some graphic designers charging \$16 to \$50 per design, and then there are people making \$600 to \$2,400 doing the same job? There are clients paying up to \$8,000 to have an online payment system set up for them... when it costs only \$50 to \$300 to sign up for a third party payment processor! Most one man marketers tend to write their own squeeze page or sales copy, but you can be asking for anywhere from \$500 to \$5,000 per task! If youre wondering there are people willing to pay this kind of money, you bet! And it doesnt require you to hype things up or even rip people (if these thoughts ever occur to you!) You see, the clients you should be targeting are big companies or offline businesses that want to get a new channel of potential customers from the Internet. And this is where YOU come in! Why You Should Target Big Companies And Offline Businesses... Here are the reasons why: They are your best type of customers. Healthy companies rarely have a financial problem but are often too busy with the minor details. The boss of a high profit company would rather outsource the work versus doing it on his own. You can be the leader of your own market! Every offline business near your place of stay are your target customers. And even if you dont consider this feasible because youre geographically challenged, you can

still find high paying clients through the Internet! You dont have to be a super expert. This cannot be any further from the truth. As long as you know a little more than what most your clients know, and theyre willing to pay for your service, you can be in the consulting business! They dont care about the whos who Internet gurus - they only care about getting work done and find more business! Its easier finding 10 clients paying you \$1,000 each for your service compared to 1,000 customers paying you \$10 each for a cheap product. I hope youre excited at the possibilities now! This is how newbies can truly generate a healthy monthly income from even the most basic knowledge on Internet Marketing! And so what if you know absolutely NOTHING? Not a big deal at all! Get This... the word newbie is an overused label. It all boils down to your self confidence. How much do YOU think you are worth? Instead of letting other so-called experts dumb you down and tell you how much THEY think youre worth, isnt it time you write any number you want on your check? As long as you have basic knowledge you are qualified to be a consultant in your own rights. What you need is a SYSTEM. A systematic approach to find, get and keep clients... and rake in big paydays!
