

Mp3 Beurdoax Fozle Qosletong - Silly Ginfinos, Busadinaks Are For Furdinams V2

[DOWNLOAD HERE](#)

Crap. Pure Crap. This is simply the same album as V1 played in reverse, and with silly drums and bass added. Torturously acerbic and mordant 16 MP3 Songs in this album (41:52) ! Related styles:

ELECTRONIC: IDM, AVANT GARDE: Sound Art People who are interested in Aphex Twin Squarepusher Boards of Canada should consider this download. Details: Same stinking album, just played in reverse with basic drums and bass added to create its own "dark wave generic techno ambience". Some of you have already figured out who we are. The rest of you don't need to know - trust us, it's better that way. Any similarity between the titles of the songs on this album and other songs by other artists having similar titles is purely coincidental.
