See what others are saying about Chris: "Chris Yurchuck finds the balance that seems so elusive for the majority of songwriters: he has a contemporary flair about him but also has deeper roots in more time-tested music. While one hears the influence of acoustic-based rock bands such as Dave Matthews and the Jayhawks, sprinkles of Johnny Cash, Bob Dylan and Tom Waits can also be felt...This CD (Dark Secret) truly sounds as good as anything that's out there. I hope we hear more from Chris Yurchuck, because we need him." - Musesmuse "Often reminiscent of a time when artists were truly connected to their worlds, Yurchuck's brand of live music brings warmth and honesty to a music scene engrossed in flashy hooks and pop star dreams. His no nonsense vocals are pure and untouched by studio tricks leaving a taste in your mouth of having just experienced the real deal." - Dayne Blitz, IME Productions and Bookings
