This is modern music made for enjoyment by all lovers of rock roll - from the art-rock scientist to the radio pop traditionalist. Just as the lyrics speak of uncontrollable forces in opposition - so do the compositions, which are lovingly arranged for maximum harmonics. The urge will be strong to begin slow movement, sing along, and have another of whatever it is you're having. Our Experience is Unique was written, arranged, performed, and produced by David Richard Voigt at Bean Bag Records in Brooklyn, and features some ultra-sonic performances by members of Luna, Champale, and Noise Museum... add some heavy psychic doses of Roxy Music, Genesis, and Todd Rundgren to the mix - - and once the smoke clears you've got a smart reason to rock!
