With those words, famous painters, chris pudsey and john reynolds, in cooperation with PATE RD STUDIO, are pleased to announce the release of 'unconditionally You', their long awaited second studio project of original Christian alternative pop music. The sessions had been interrupted several months due to health related problems to both pudsey and reynolds. Both spent time in the hospital and even more time recouperating at home, effectively bringing things to a halt. "We were really on a roll recording wise, and then it seemed like almost from out of nowhere we were both on the injured reserve list and the music had to take a back seat. But thank God, He kept His hand on us and we both finally got healthy enough to finish the cd." said reynolds with pudsey adding,"We just both feel really blessed to have been able to make it through!". About the new music reynolds said, " Again, we're pretty much all over the map stylistically. so hopefully there's a little bit of something happening there for everyone. We really had a blast putting it together and just pray that first of all, God is pleased, and secondly, that everyone listening will have as much fun as we did recording." Be sure to check 'unconditionally You', famous painters second effort, at cdbaby.com, itunes and other internet outlets. "
