Music in the vein of British Big-Beat of 60s-70s with the touch of Blues' flavour that sounds like "Johnny and the moondogs" surviving the hip-hop era. 30 MP3 Songs POP: Beatles-pop, ROCK: 70's Rock  
Details: I've been playin' music for 22 years in the local bands all through the late 60s and up to the yearly 90s. I still believe that there is no replacement for strong melody, harmony and rhythm in the "good" music, or whatever you may call the stuff that makes you "scream and shout". On this double CD you'll hear my own compositions (24 out of 30) that I've been gathering for years but didn't have a chance to release. Nowadays this style is mostly considered as so called ALTERNATIVE RETRO, but I remember the times when it was Main and only, "times", y'know, "they a-changin'". Hope you enjoy these musical pieces as much as I while recording them! Beatley Yours, Juri
