Soulful guitar, compelling rhythms. 11 MP3 Songs FOLK: Folk-Jazz, JAZZ: Jazz-Rock Show all album songs: What's Inside Songs Details: When I was in high school, I used to sit, cradling my guitar and playing the same, limited progressions over and over. In this simple container, I invented with my voice and felt my feelings and ideas about "my so called life". I was able to find words, and singing them, I could deepen and lift off to all kinds of places. Years later, when I met Tim and his fantastic, virtuoso guitar, well, can you imagine my happy inspiration. Whats inside? The songs, their stories, and some of whats inside for many of us. Originally, we released this disc in Y2K. Today, the disc is still selling, and Tim and I are still very connected to these songs. So, now, we are cast a wider circle and reach out to you. Tim teaches music and owns/operates a music store with his wife Bonnie, milfordmusic.com. Check out the website. Lots of fun stuff there. For one, Tim just recently got airplay on N.P.R. !! Hear it and more on his website. I teach voice, am becoming an Alexander Technique teacher, and I am a board certified Music Therapist. My website is under re-construction (ho hum). Try kathymooremusic.com. I do have other music clips there, some live, and more info about me. Very soon, all the original song lyrics will be available there for download. I love having others sing my songs. Soon to be released : my new CD, Across Time. Watch for info on cdbaby and on my website. Thanks for listening, for purchasing, for helping us to play our songs to the world. When you sample the file, please be sure to go to the ones at the end of the list too! There are lots of styles and moods. Let us know what you think of the tunes! Kathy and Tim
