If your into some intense Power Metal then read on. Power Metal which seems almost non existent in Toronto with the only band that comes to mind being Eidolon gets an amazing wake up call from Penetrator as Bess Ross (Guitars) and Maxel Black (Vocals) put together one of the best Canadian metal duo's not yet heard of in this country's history. These two guys along with David T Green (Bass) and Simon Vanderzand (Drums) tear through nine tracks of heavy metal passion and fury. The title track which leads off the CD has this superb power metal riff that will no doubt have you screaming for more. "Spread the mind" and "Guns and Whiskey" explode with Bess Ross's incredible riff mastery. Maxel Black's vocals on "Unleash the Fury" take you to another world of the power metal genre.
