The music ranges from other-worldly aural-sculptures to dance music from disjointed dreams. 15 MP3 Songs ELECTRONIC: Experimental, ELECTRONIC: Soundscapes Details: SMX = SPITZNAGEL's MOOG EXPERIMENTS "SMX" is a CD of improvised and experimental music utilizing the MOOG Voyager synthesizer and percussion. Song structure was formed out of musical upheaval by editing in Sonys Acid-Pro software. The results range from other-worldly aural-sculptures to dance music from disjointed dreams. SPITZNAGEL's music ranges from acid-jazz to retro-electro to techno-dub to laptop-blip'n'glitch. With 30 years of experience in the music business and 15 of those as a professional musician, SPITZNAGEL brings a broad perspective to the worlds of electronic, experimental and sample based music. CADENCE, the world-renowned jazz magazine, has stated: "SPITZNAGEL negotiates a unique solo performance using electronics as his paintbrush and an extra-wide soundstage on which to splatter his creation".
