Rustic Chill Out Music - Dessert Ambient Folk - Country Music for late night drives across the high plains
10 MP3 Songs ELECTRONIC: Ambient, FOLK: Gentle Details: Topeka is all about the angular
alt.Americana roots music of one Fletcher Harrington, the wonderful voice of Tanya Livingstone, and the
multi instrumental talent of Brit Collins. The songs slip from a straight ahead folky feel as evidenced on
the opening cut "Another Brilliant Day" and the very catchy version of Pink Floyd's "Cymbaline," but in
between there are some of the most inventive, well crafted, delicate songs that its been my pleasure to
hear for years. From the dense metaphors of "Sliding Scale" to the closing aching love song "Ten Steps"
there's unrelenting craftsmanship at work. On top of that there's also a clever inner structure at play with
careful positioning of tracks based on tempo, feel, and pace. Fletcher is no ordinary song writer. His
songs are undoubtedly based on a mix of personal experience, literary nuances, and personal
melancholy. These tales of lost love and loneliness have a spare sound, capturing a feel of regret and
remembrance. They do not seem written by someone who is satisfied, but rather by a man who is
constantly searching and on the move. There is an unsettled beauty here, and visions of feelings that can
never quite be resolved.
