Oracle SQL Recipes is a strong play into the market for SQL books, and in particular for Oracle SQL books. Edited by the same person as the SQL Cookbook (14,992 units lifetime) and Mastering Oracle SQL (12,186 units across both editions), Oracle SQL Recipes combines the problem/solution approach of the Cookbook with the Oracle focus of the Mastering book. The result is a solid, solution-oriented book with no direct competition that is sure to get noticed by a large audience of Oracle developers and database administrators.
