

Thermospheric Density And Wind Determination From Satellite Dynamics

[DOWNLOAD HERE](#)

From the contents: Empirical modelling of the thermosphere.- Satellite dynamics and non-gravitational force modelling.- Producing density and crosswind from satellite dynamics observations.- Analysis and interpretation of density and wind data.- Empirical model calibration.- Conclusions and recommendations.

EAN/ISBN : 9783642251290 Publisher(s): Springer, Berlin Discussed keywords: Atmosphre Format:

ePub/PDF Author(s): Doornbos, Eelco
