WORLD: Middle East Contemporary, WORLD: World Traditions Details: This project started as just a desire to bless my people with the gift of music that God has so graciously given me. The end result is this album, which has FAR exceeded my expectations. I am full of gratitude toward God that He has enabled me to share this gift with Am Israel (the Nation of Israel), to let them know that He is near to them, especially now, Lazman Hazeh (for such a time as this).
