

# Mp3 Barnes And Barnes - Amazing Adult Fantasy

[DOWNLOAD HERE](#)

Barnes and Barnes become a bit schizophrenic on this album from 1984. Not sure if they should record more material in the "Devo-ish" vein of their previous ep, or go backwards a bit towards their "funny" music period of 1980. So they compromise. 24 MP3 Songs POP: Quirky, ELECTRONIC: Soundscapes  
Details: "Amazing Adult Fantasy" - Barnes and Barnes - 1984. We find the boys sitting with their new drum machines, having lost their CBS Records deal, pondering a musical direction and future. Make some more "Devo-ish" music and try to get some quirky new wave airplay, or go for the laughs with the weird and funny stuff again. What to do... So they compromise. They inter- mingle the 2 styles. A lot of B B fans say this is their favorite album. You be the judge. It's glorious musical schizophrenia. Newly remastered for righteous sound and chock full of bonus cuts. Wow!
