A collection of live tracks, studio tracks and home-made demos by a critically acclaimed songwriter. 8 MP3 Songs POP: Folkly Pop, EASY LISTENING: Soft Rock Details: The world is taking notice of Clay Mottley. The Fredericksburg Songwriter's Showcase called Clay "the most vital, exciting, young talent we've seen in a long time." And that's because he is a great singer, songwriter, player, interpreter and entertainer who knows how to put a band together that can crystallize every facet of his broad musical personality. The comparisons range from James Taylor to Dave Matthews to Dan Fogelberg, and the elements of these artists have been absorbed, distilled and incorporated into Clay's sound. Loud, soft, percussive, funky, edgy, mellow, rockin'. It's diverse, intelligent and you can dance to it. From his performance from Washington, D.C. to North Carolina to his pit musician work in musical theater, Clay comes to the music biz trenches armed with formidable musicals tools. Hailed by the Front Porch News for his "sophisticated chord structures and rich harmonic base" and the Mary Washington College Bullet for his "unbridled energy and danceability." Clay can get the left-brainers thinking and the right-brainers dancing. Clay is continually gathering a solid east-coast fan base and selling approaching 1500 copies of his two self-released and self-produced albums, 1999's "Stormy Words," and this years "Can't Be Wrong," both of which have garnered great reviews and a CRITIC'S CHOICE from Billboard Magazine.
