

Mp3 Dear John Letters - Rewriting The Wrongs

[DOWNLOAD HERE](#)

"Punchy, melodic, and even gorgeous at times, they write pop songs that stick in your head and warm up your heart." 14 MP3 Songs POP: Beatles-pop, POP: 60's Pop Details: "Out of nowhere comes Rewriting The Wrongs, and I think I may have found the best album of 2001." - Alex Green (music.yahoo.com) "A great full-length from a band that could make a career list out of a struggling major label scout." - Theodore Defosse (splendid) "This is very solid indie-pop" - (CM) Impact Press "Sublime debut album." - Joe Ehrbar (Seattle PI) "Often gentle and wholesome, sometimes acrimonious, Benson's songwriting warmly refers to the Beatles." - Corianton Hale (The Stranger) "A pleasing, intelligent collection from a songwriter aiming for both the head and the heart." - Adam McKibbin (Entertainment Today) "Somehow they've balanced a contemporary indie aesthetic, an outsider musical genre, and the sounds of one of the most famous musicians of the 20th century into a contemporary album that stands on its own and makes Dear John Letters an act that seems fresh and vital instead of derivative." - Patrick Schabe (PopMatters) "It's got the same distant moodiness and melodrama that frames John Lennon's first two solo LP's, scaled down of course to a smaller budgeted, do-it-yourself ethos." - (The Big Takeover)
