The ache of kd lang meets the organics of Amy Grant. Melissa has forged a style that suits her powerful voice. Too soft for pop, too hip for adult contemporary, she is an artist in every sense of the word. 12 MP3 Songs POP: Today's Top 40, ROCK: Americana Details: Simple Life is my debut CD. I recorded it in Nashville, TN with some amazing musicians. I had no idea at the start of this project how truly blessed I would become by working with such incredible people. Everyone involved in Simple Life brought such wonderful energy to the project. I truly believe it was a group effort and I'm so proud of our final version. Simple Life is a collection of songs about Love and Life. Most of them were inspired by "moments of growth" in my own life. Eight of the songs are originals or co-writes of mine with my very own sister, Michelle Lewis, and a wonderful friend and co-producer, Angel Roman. The remaining four songs were written by Andrea Stople, Jess Leary, and Tanya Leah. While in Nashville, I spent considerable time doing session work for songwriters, as well as working on my own material. I recently moved to Los Angeles where I am pursuing my music further. My songs "I Believe" and "Without You" were both placed in the Canadian television series "The Eleventh Hour." I continue to write new material and recently gotten my band together. For performance dates, please visit my website. I'd like to thank you for taking time to listen to my music. I hope you enjoy listening as much as I enjoyed creating it. Peace and Love
