It is a musical scrapbook that reflects on their remarkable journey together from beginning to end, and beyond. This gem was recorded and mixed entirely on an iMac G4 using GarageBand with no outboard gear, a fact that has surprised musicians and listeners alike due to the richness and warmth of the production. The material is an exploration of various musical styles, including R&B, pop, rock, gospel, new age, and prog. It also marks many firsts for Mallory, who is known as a bassist: writer, producer, arranger, engineer, and multi-instrumentalist. The vocals come courtesy of several highly talented singers from Los Angeles: Dean Vivirito, Johnny Indovina, Jonn Ross, and RoGue. Their impassioned performances always lend the perfect vibe and immediacy to the songs. From the beautiful cover design, to the diverse and often moving material within, Songs For Elizabeth is a compelling and unflinching look at life, death, and its aftermath.
