Details: Heralded as having a smooth, soothing voice that captures the essence of the songs that she sings, Natalya has selected old favorites like "Let's Stay Together" and gives them her own personal twist. She also brings her captivating vocal style to original songs such as "There In Your Heart" and "Say Yes." With tight harmonies and urban beat arrangements, Natalya pleases the ear and the heart with a clear, clean sound. Originally studying Broadway musical theatre in New York, Natalya was forced to take a year hiatus to recuperate from bilateral knee surgery. The hiatus obviously did not affect her vocal chords. During that year, Natalya worked with a variety of Utah and Canadian talent who helped make this CD a reality. She especially thanks Finn Bjarnson, Craig Poole, Yoni Gileadi, and Rob Wannamaker who provided her with edgy arrangements and original material tailored to her unique talent and vocal style. Whether it's a power ballad such as "Love of a Lifetime;" a bass-thumping dance re-mix of that old standard "Let's Stay Together;" or the classy urban sound of her original renditions of "There In Your Heart" and "Say Yes;" Natalya's talent is sure to find a niche in your CD library.
