Ya flow is strong, confident an' throat-grabbin', an' Base Jase's beat wit tha synth background vocalz iz tyghter than a durag. lol It reminds me a lil of Lingo's "Puttin' It Down" from his Representin Tha Finest album, although dat jawnz a lil softer. Yo, I'ma fixin' 2 start this Sat's show wit "Keep On" an' mebbe use that as tha show title!
