hip hop 8 MP3 Songs HIP HOP/RAP: West Coast Rap, URBAN/R&B: Funk Details: The Big Black African! I do not write down my own song's I just go for it and freestyle all lyrics. I do not try to offend anybody on this record I'm only joking around and having a good time. Each song I took my time on and made this album better than my first one. The first two song's on the album or my most personal favorites. I also try to create my own reggae in this album along with some techno stuff. I hope you guys enjoyed my music don't take it seriously and have a good time listening.
