Indie psych pop 13 MP3 Songs POP: Psychedelic Pop, ROCK: Experimental Rock Details: Hark! The Celebrity Pilots proudly present their latest drop into the psych-pop bucket, Spooky Action. Recorded and produced by Todd Tobias (GBV, Robert Pollard, Circus Devils) at Kent Ohios Waterloo Sound Recording, Spooky Action celebrates timeless pop songwriting on multi-layered tapestries of fuzzy guitars, ancient organs and monophonic synths. Following up 2005s Beneath the Pavement a Beach, Spooky Action spreads out into a larger, more eccentric ellipse. From the Byrdsian by way of My Bloody Valentine rave up of Happy Bloom Day to the Beach Boys tinged Our Dumb Century to the full out scatter shot punk-Zombies-esque Festival of Flies, songwriter/singer Chris Sheehan constructs another album of pop gems centered in 60/70s era psych, the Eno-Cale collaborations, and 80s post punk. Whether its ringing power-pop, or stark soliloquies, Sheehan boasts the same deftly crafted acumen of established visionaries like Ted Leo and Apples in Stereos Robert Schneider, which as it goes without saying makes for some highly desirable company. - The Big Takeover Rounded out by bassist Adam Dowell, keyboardist Jess Faller, and drummer Josh Gerken, The Celebrity Pilots will be coming to a city near you this summer and fall.
