Blues, Funk and a lot more 10 MP3 Songs  
BLUES: Rhythm Blues, BLUES: Electric Blues  
Details: We are an Atlanta Georgia based Blues, Funk and Soul Band. We have been playing locally and regionally for over seven years and average 150 live shows each year. We are a six piece band with Guitar, Bass, Drums, Piano (Keyboard) Harmonica and more. We play many different venues and strive for audience participation and enjoyment. This C.D. covers a wide spectrum of the Blues from Roadhouse Raunch to Jazz/Swing blues making many stops in-between. Some important footnotes, this album features guest artists like Reggie Ward from the S.O.S. Band and virtuoso guitarist Carl Culpepper who has too many credits to mention including being a published musician with Hal Leonard, Cherry Lane and Alfred publishing companies. This album also features The legendary Big Royal Joiner on Keyboard who besides playing with Work in Progress is The Great Blues legend Chick Willis' keyboard player. We also feature the phenomenal Bass playing of Nashid Abdul who has so many credits that we can't even begin to count them including playing with and for Big Bill Morganfield, the son of the late great "Muddy Waters". We also have Sven Hoosen the newest member of the band playing harmonica, guitar, and singing tracks like "Blind Man Blues" and "Digital Blues" as well as others. This line-up also features the incomparable Mr. Pete Peterson on the track "A Better Woman" and is now a permanent member. Let's not forget our drummer Ben Irvin who has played with R&B and Blues acts worldwide. I add the main guitar work to this terrific project and have had such a great pleasure playing with this all-star line-up. Thank's for looking, John Marshall. Enjoy!
