It was at Fritzs, in Amarillo, where Arch made his professional debut on a piano signed by Liberace, at 19 years old. He received his Bachelor of Fine Arts Degree from Texas Tech in Lubbock, Texas. Since then, Arch's performance reputation, and music leadership has taken him to many cities across the United States as well as New Zealand and the Netherlands. He has performed for over 5 million people worldwide! Each performance, unique unto itself, takes his audience on a musical journey that only a handful of entertainers in the world are capable of accomplishing. Arch has an incredible ability to communicate with each individual in his audience. Arch has three (all original) CDs. His first CD "Piano Talk" was released in 2000. Arch's second CD, "Back Seat Oracle" was released in late 2003, to rave reviews. Arch just finished his third CD "Chemistry" which is newly released as of November 2008. Arch has written several songs over the years and is still adding to his growing arsenal of original material. His lyrics and music are from his heart and soul. On "Piano Talk" "Back Seat Oracle", Arch performs all voices and instruments. With "Chemistry" (Arch included a few friends). Arch takes pride in rejecting the use of samplers and sequencers. That means one track at a time, Arch says he prefers to do it old school play it! This CD is about the Chemistry of Life. Its not about the science, its about lifes Chemistry and all the crazy elements involved. There are many different styles of music in this CD. Not only is this so because of my love for all music, but it

represents what happens when many elements come together, and somehow stay together by the existence of one catalyst. In this case it is me, and my belief in life. Enjoy the ride! Arch.
