

Mp3 Chas - Blues: Jazzy Blues

[DOWNLOAD HERE](#)

Harmonica blues-based original compositions which venture into rock, jazz and r&b...sitting in a comfortable chair, glass of merlot, kick off shoes, dim light, late night, a little too loud, eye-closed, slightly grinning style of music. 15 MP3 Songs BLUES: Jazzy Blues, BLUES: Rhythm Blues Details: This cd is a collection of original compositions by Chas, a singer/songwriter/guitar and blues harp (harmonica) player originally from the Chicago area, now living in the Lehigh Valley, Pennsylvania. Over twenty talented musicians from the Lehigh Valley participated in this two-year project including former Sheryl Crow guitarist Todd Wolfe and "Chicago" Carl Snyder who has played and recorded with the likes of Junior Wells, John Primer, Son Seals and others. The great vibe player Ron Byrne, keyboardists Craig Kastelnik and Dan McKinney, jazz drummer Gary Rissmiller and singers Kassi Furman and Venessa Lovell are also among the many talents to be heard here. Songs reflect influences from blues to jazz, dixieland to rock, Elvis to Jobim, Little Walter to George Smith. These songs are first and foremost distinctively original. Like a good wine, to be savored, shared with friends, or enjoyed alone... not intended for everyone...but those with a particular taste. It had been a hard day...hey, it was a hard week. She had kicked her shoes off the moment she walked in the door. Nice warm shower, comfortable robe, bare feet.. She wasn't going anywhere, it was an evening to relax at home, sink deep into her favorite chair, nibble on little chunks of various cheeses, cheddar...muenster...swiss...colby...light a few candles...sip a glass of merlot and...hmmmmm, what to play? No. No. Not right now... ahhh, yes, just the right cd. She sets it in the tray.. pushes play...slowly backs into her resting place...("Moonshine" plays). A smile slowly comes over her face... Grabs for the remote...(just a little louder...). Yep...that was the right choice... It's gonna be a great night...
