

Mp3 Cp - The Studio Center Sessions

[DOWNLOAD HERE](#)

Singer/Songwriter Christopher Phipps of the group London Exchange recorded these (8) original acoustic songs at Miami's legendary Studio Center over a 6 month period starting in Oct 07, mixing elements of rock, folk and alternative. 8 MP3 Songs in this album (33:52) ! Related styles: FOLK: Alternative Folk, ROCK: Acoustic People who are interested in Pink Floyd Leonard Cohen Roger Waters should consider this download. Details: CP "The Studio Center Sessions".The title is my tribute of sorts to Miami's legendary Studio Center where I have been doing all of my live recording now since 2000! The A-Room has seen Prince,Madonna,Missy Elliot and Snoop Dog among others record there over the years! This was really a labor of love that started back in my London Exchange days when I would bring my 12-String guitar back stage and play for friends and band members to warm up and pass the time before our shows! The 8 songs on the album were written and performed by me for my acoustic set over the years and though I have many more these are the ones I always keep coming back to! These are live studio recordings with very little overdubbing as I wanted to try and capture the feeling and energy of the songs as they were originally written and played! I was in the studio from Oct07-Dec07 recording tracks and spent Jan08-April08 mixing them. My special thanks to Steve Cuiffo,Hector Mendez Jeff Fishman at Studio Center and Mike Fuller of Fullersound Miami for helping me realise my vision! Please give the tracks a listen and post any comments on my official myspace page as I want your feedback! Thanks in advance for your time and hope you enjoy listening to the music as much as I did making it! Chris Sept 2008
