Put On The HeadPhones Get Lost For A While 11 MP3 Songs ELECTRONIC: Ambient, POP: Quirky

Details: The songs for JTIOM 2 were actually written and recorded before the original JTIOM cd.

Sometime between 1996-1999, myself, along with Tom P. recorded these songs on a Tascam 488 cassette recorder. We then mixed everything to a stereo cassette mix. I put the cassettes in a drawer for 4 years. In 2003 I rerecorded the songs to a digital cd recorder, the results..... One critic who reviewed the cd said, and I quote " JTIOM 2 shows talent and sheer innovation. Intense vocal presence,mixing electronic funk and a wild vibe that sneaks up on you, around every corner. Recording and fun done in the "MoleHole" In Tucson, Az." Matt Wright/Territorial Times
