New Age Guitar instrumental That rocks, Wave Music, Great traveling music or just making Love 8 MP3 Songs NEW AGE: Meditation, JAZZ: World Fusion Details: Moon Landings, a new CD from California guitarist Michael Biscotto, is instrumental poetry which speaks of a universal and intensely personal spiritual awakening. Straddling a line cut somewhere between rock and new age styles, the guitar-oriented material is reminiscent of the melodic playing of Russ Freeman (when electric) and Craig Chaquico (when acoustic). Acoustic tracks such as "Jungle Moon" (each song has 'moon' in the title) display a subtle world influence, while the electric "Moon Walker" delivers a bluesy fusion sound. Joined by a band including Dean Lopes on drums, Don Randi on keyboards and Scott Richards on bass, Biscotto has produced an album with both space and grace - instrumental compositions that warm the heart and soul. Instrumental Guitar (Electric/New Age/Rock), total running time, 35:46 And its worth it.
