In 2004 he teamed up with Paul Finnerty and they recorded a CD in the mainstream jazz style. They were quick to realize that the best way to promote their music was to write original tunes and in 2006 they brought out a CD which was done in the adult contemporary style. This year they have produced a CD which so far has been described as being in the 60s pop/retro rock style, although to either it is just good music. They incorporate a few tunes that have social conscience as they think its their duty to make people more aware of the circumstances in the world today.
