

## Mp3 Simon Webb - The Brain

[DOWNLOAD HERE](#)

The Brain is exquisite ambient music that fuses influences from classical, world and electronica into a rich sonic landscape. Music for meditation, massage and relaxation. 12 MP3 Songs NEW AGE: Ambient, NEW AGE: Meditation Details: "Hugely atmospheric, an enticing aural landscape" THE BRAIN is a kaleidoscope of styles and influences woven into a rich musical patchwork, full of atmosphere and emotion, leading the listener on a fantastical musical journey. In a beautiful series of musical pieces, composer / performer Simon Webb leads the listener into his personal sound world and weaves his musical spells. The music is deep and alluring, and the performances by Simon and his fascinating orchestra of singers and instrumentalists are compelling. THE BRAIN is one of those albums you just want to shut your eyes to, and be taken on the journey; music for the ambient generation. Simon Webb is a musician and composer best known for his theatre and television work. THE BRAIN is his first solo album. He is currently working on the follow-up, THE BODY.
