# Advances In Computer And Information Sciences And Engineering

[DOWNLOAD HERE](#)

From the contents: 1. A New Technique for Unequal-Spaced Channel-Allocation Problem in WDM Transmission System/ A.B.M.Mozzammel Hossain and Md. Saifuddin Faruk. 2. An Algorithm to Remove Noise from Audio Signal by Noise Subtraction/ Abdelshakour Abuzneid et al. 3. Support Vector Machines based Arabic Language Text Classification System/ A.Moh d. Mesleh. 4. Visual Attention in Foveated Images/ A.Yavari, H.R. Pourreza. 5. Frequency Insensitive Digital Sampler and Its Application to the Electronic Reactive Power Meter/ A.N. Abiyev. 6. Non-Linear Control Applied to an Electrochemical Process to Remove Cr(VI) from Plating Wastewater/ Regalado-Mendez, A. 7. Semantics for the Specification of Asynchronous Communicating Systems (SACS)/ A.V.S. Rajan et al. 8. Application Multicriteria Decision Analysis on TV Digital/ A.K.Arajo de Castro et al.- 9. A Framework for the Development and Testing of Cryptographic Software/ A.Burnett, T.Dowling. 10. Transferable Lessons from Biological and Supply Chain Networks to Autonomic Computing/ A.Calinescu. 11. Experiences from an Empirical Study of Programs Code Coverage/ A.Derezinska. 12. A Secure and Efficient Micropayment System/ A.Nguyen and X.Shao. 13. An Empirical Investigation of Defect Management in Free/ A.Gupta, R.Kumar Singla. 14. A Parallel Algorithm that Enumerates all the Cliques in an Undirected Graph/ A. S. Bavan. 15. Agent Based Framework for Worm Detection/ El-Menshawy et al. 16. Available Bandwidth Based Congestion Avoidance Scheme for TCP: Modeling and Simulation/ A. O. Oluwatope et al. 17. On the modeling and control of the Cartesian Parallel Manipulator/ A.Y. Elkady et al. 18. Resource Allocation in Market-based Grids Using a History-based Pricing Mechanism/ B.Pourebrahimi et al. 19. Epistemic Structured Representation for Legal Transcript Analysis/ T.Hughes et al. 20. A Dynamic Approach to Software Bug Estimation/ Chuanlei Zhang et al. 21. Soft Biometrical Students Identification Method for e-Learning/ D.Kumlander. 22. Innovation in Telemedicine/ D.Lopes et al.- 23. Service-enabled Business Processes/ C.K. Georgiadis, E.Pimenidis. 24. Image Enhancement using Frame Extraction Through Time/ E.Coleshill et al. 25. A Comparison Of Software For Architectural Simulation Of Natural Light/ E.Christakou and N. Silva. 26. Vehicle Recognition Using Curvelet Transform and Thresholding/

F.Mohamad Kazemi et al. 27. Vehicle Detection Using a Multi-agent Vision-based System/ S.Samadi et al. 28. Using Attacks Ontology in Distributed Intrusion Detection System/ F.Abdoli, M.Kahani. 29. Predicting Effectively the Pronunciation of Chinese Polyphones by Extracting the Lexical Information/ F.-L.Huang et al. 30. MiniDMAIC: An Approach for Causal Analysis and Resolution in Software Development Projects/ M.G.S.Gonalves, C.Ilane Moreira Bezerra, C.Carneiro Coelho, Carlo Giovano S. Pires. 31. Light Vehicle Event Data Recorder Forensics/ J.S.Daily et al. 32. Research of Network Control Systems with Competing Access to the Transfer Channel/ G.V.Abramov et al. 33. Service-Oriented Context-Awareness and Context-Aware Services/ H. Gmskaya, M. V. Nural. 34. Autonomous Classification via Self-Formation of Collections in AuInSys/ H.H. Pham. 35. Grid Computing Implementation in Ad Hoc Networks/ A.Grnarov, et al. 36. One-Channel Audio Source Separation of Convolutive Mixture/ J.Taghia1, J.Taghia. 37. Extension of Aho-Corasick Algorithm to Detect Injection Attacks/ J.Rejeb, and M.Srinivasan. ... EAN/ISBN : 9781402087417 Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Sobh, Tarek
